PROJECTS

Web Development — *Study-Hub*

Co-Creator and Developer

Collaborated with two team members to create <https://studyhub.accommodationhelper.com>. The site streamlines the search for student subject notes, allowing teachers and authorized students to share study material on this platform. Implemented features like user registration, different control panels for different user types, and search functionality based on Branch, Semester, and Subject to enhance user experience. Successfully launched the website, providing a valuable resource for students seeking a convenient platform for study material.
